New York Stock Market

New York, January 3.—For a time after the opening to-day the stock market wore the same cheerful aspect which it assumed during yesterday's sharp upturn. The opening range of prices showed small gains for almost all of the standard stocks except the Harrimans. The advantage was increased in the first few minutes with a pronounced movement among the coalers, and Leaigh Valley shot up 3-1-1 points in the first ten minutes. The enmand was brisk, but before the end of the first hour the market had jost its gains. During the remainder of the day it fell back, and in the late session it became really weak.

and in the late session it became really weak.

The day's movement in general was ascribed to profit-taking. The increase in which buying was noted yesterday falled to develop to sizeable proportions. The professional traders apparently held the view that in these uncertain times it was best to take profits while they were in sight, with out waiting for them to grow. Stocks bought on the rise yesterday were thrown back on the market to-day, and as prices feil there was some short selling.

The wires which kept Wall Street.

selling. The wires which kept Wall Street in touch with its agents in Washing-ton were busy with a varied collection of political reports and propheses, largely concerning tariff legislation. Uncertainty as to the extent to which tariff revision may be carried and as to its effects upon securities doubtless was an underlying cause for the reaction in prices.

to its effects upon scenarios doubtiess was an underlying cause for the receition in prices.

Among the less active stocks movements were widest. Virginia from lost i 1-2 points, more than the amount of yesterday's studen spart.

Money rates were easier to-day, call funds loaning as low as 2 1-1 per cent. The bond market was broad, active and irregular. Some of the reorganization issues were strong. Total sales, par value, \$4,025,000. United States bonds were unchanged on call.
